

DENVER MEN HAVE INVENTED DEVICE TO STOP TRAIN WRECKS

Through the invention of two Denver working men, 95 per cent of the railroad wrecks of the future may be avoided. The invention is a steel railway tie and connection, and the two men who have perfected the device are George H. Shane, a tramway conductor residing at 3415 Wyandotte, and Robert E. Foresman of 3427 Osage street, that city.

The letters patent have just been issued by the government and the device is being made ready for use.

The metal tie is not unusually heavy, and possesses a requisite amount of elasticity. It is sufficiently flexible to prevent undue vibration and jarring of trains, yet strong enough to stand the severest strains. By the use of a novel rail fastener it is impossible for the rails to spread, thus doing away with the possibility of fully 95 percent of the wrecks. The invention will also make it impossible for the rails to turn over, which is also now one of the chief causes of wrecks. While the first cost of the new patent tie is greater than the cost of those now in use, it is claimed by the inventors that the first cost will be more than met by the additional wear, not counting the saving as a wreck-preventive.

Shane, who is an experienced railroad man, has been working on the invention for years.

BRAKES AND BUTTONS—

Gasoline motor cars are to be substituted for steam cars on the Santa Fe lines if tests which are now planned prove all that is claimed for the gasoline car. Tests will first be made on the eastern division of the road and then between Pueblo and Canon City and Colorado Springs and Pueblo. The tests between Colorado Springs and Pueblo will be made in June and July. The Santa Fe recently placed orders for a number of gasoline cars and the road is sending them to various points on its big system.

Sandy McMillin, a former Santa Fe officer and watchman in Las Vegas, didn't accept the position tendered him at the Raton railroad shops, and is now off the road altogether. At last accounts he was in Trinidad. His brother is city marshal in Albuquerque.

P. E. Kayler, a chemist drawing a snug salary from the Santa Fe company, arrived in Las Vegas last evening on No. 9 from Topeka.

W. H. Rife, of the Santa Fe signal corps, came home here from Pueblo, Colo., last evening.

G. L. Cline, resident claim agent here, returned from a trip to Raton last evening.

Four sets of trainmen, who had been plying out of Las Vegas, left for the cut-off yesterday.

Conductor T. V. Bryant is now a patient at the local railroad hospital, going out there yesterday.

A piano was received here yesterday by freight from Trinidad, Colo., addressed to N. W. Fisher.

Brakemen P. E. Keeney and W. H. Shaffer have been switching in the local yard.

Brakeman M. S. Quinn now has a regular run with Conductor J. F. Mulhern's passenger crew.

Milton Burns, who had been laid off on account of a reduction of forces, is again in the service of the Santa Fe at this point. He is working as a laborer at the shops.

William Lewis and his crew have been down the line again picking up some cars by the wayside.

Eugene Fulgenzie, who has been employed as a machine hand at the shops here, has tossed the job over his shoulder and will look elsewhere for his daily bread.

C. H. Berry and wife have left this city for Clovis, N. M. Mr. Berry has been employed here a number of years as a California fruit inspector. The position has been abolished and he has been transferred to the short line.

According to the Clovis Post, twenty freight crews on the Santa Fe railway will make Clovis their headquarters. Many of the men are married men, with families, and they are quite a little concerned lest it will be impossible for them to move their families here, there being no vacant houses. Clovis is not growing too fast when it cannot supply railroad men and their families with houses. Clovis needs a hundred dwelling houses to supply the present demand.

M. A. Davis of the Pullman company at Albuquerque, accompanied a Gates excursion train as far as the Grand Canyon.

Patrick Callahan, 53 years old and for the past twenty years employed as a section foreman on the Santa Fe, then west of Albuquerque, and

in the Santa Fe hospital in that city late Sunday night. The remains have been shipped to Denver, accompanied by a brother, Martin Callahan, of Central City, Colo., who was there when the end came.

Santa Fe train No. 7, which should have left Albuquerque at 12:45 Monday morning, did not leave until 9 o'clock, the delay resulting from a slight mishap which happened near Barr station, eight miles south of that city. A broken axle on the coal tender and broken journal on the mail car caused the accident. The train was backed into Albuquerque, where the necessary repairs were made.

Dr. W. H. Burr, Santa Fe physician at Gallup, was a visitor to Albuquerque.

At Lanark, Dona Ana county, a few days ago, Jeremiah McMullen, aged 19 years, was shot and fatally injured by a Santa Fe train hand on a train passing the station. McMullen was put off the freight on which he was stealing a ride and stood on the station platform to watch the train go by when one of the brakemen fired three shots at him, one shattering the young man's hip, causing a fatal wound. McMullen was taken to the Deming hospital. It was only a short time ago that a well known young native citizen was shot and killed in a similar manner near Lanark.

An Ideal Cough Medicine.

"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Willschire, of Gwynville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Remedy. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chloroform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ill it is intended." For sale by all dealers.

KANSAS CITY MARKETS

Special correspondence.

Kansas City Stock Yards, Mch 22.—The general cattle market was lower first half of last week, offerings from the range country selling at 15 to 25c below the close of the previous week, but after Wednesday there was an improvement of 10 to 15c before the close of the week. Cattle run is 8000 head today, a reduction of one-third from a week ago today, and similar shortages are effective at all the markets, resulting in another advance of 5 to 15c today, mostly on steers. Offerings from the west and southwest are very limited today, some of the big shippers and feeders having decided to hold off till the outlook is better, although there will be several shipments here tomorrow. Colorado beef steers have sold lately at \$5.50@6.30, hay fed steers from Montrose county at \$5.40, stockers from Sagua county at \$5.05@5.10, Oklahoma fed steers \$5.25@6.35; panhandle fed steers \$4.75@6.00; range cows and heifers at \$3.50@5.15; stockers and feeders \$4.00@5.60; stock cows and heifers \$3.25@3.75. Top native beef steers today brought \$6.65.

Sheep and lambs have been coming pretty freely and prices are holding up strong. Lambs closed last week fully steady, while sheep and year-

"IN A BAD WAY."

Many an E. Las Vegas Reader Will
Feel Grateful for This
Information.

When your back gives out; Becomes lame, weak or aching; When urinary troubles set in; Your kidneys are "in a bad way." Doan's Kidney Pills will cure you. Here is local evidence to prove it: Mrs. Rosa Underwood, 806 National st., East Las Vegas, N. M., says: "I was taken very suddenly with an attack of rheumatism and kidney trouble and by the time I reached home, I was in agony. I had pains in my back and ached all over. The secretions from the kidneys were unnatural and caused me much annoyance. My husband suggested that I try Doan's Kidney Pills and they were procured for me at E. D. Goodall's drug store. I soon noticed their good effect and in a short time every pain and ache left me. The kidney secretions returned to their normal condition and I have felt no recurrence of trouble for a long time. We never mean to be without a supply of Doan's Kidney Pills on hand as we consider them to be a remedy of the greatest value."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

lincs advanced 10 to 20c. The run is 13000 head here today; market active to 10c higher, lambs today at \$7.40@7.70, the latter 15c above highest price last week. Yearlings \$6.40@7.00; weathers \$5.35 @ 6.00; ewes \$5.25 @

6.80. The first band of clipped Texas grass muttons arrived today, three cars of ewes, 78 lbs, at \$5.10, considered a very good price for them. Two cars of goats from Texas sold today at \$3.75. There is ample demand for stock and feeding grades, few weathers worth around \$4.25, breeding ewes \$4.00@5.25, feeding lambs \$5.75 @ 7.00.

Stark and stiff on the mesa, the bodies of John Kibler and George Clark, who were lost in the big blizzard of March 10, were found by a searching party from Casaus station on the cut-off west of Vaughn, the bodies lying not far from that place.

The Gallup ice plant started up for the season.

Handcuff wonders, mind reading, hypnotism, vaudeville specialties and everything that please at the Duncan tonight.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good but I have found the right thing at last. My face was full of pimples and blackheads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I take them in the morning. Hope to have a chance to recommend Cascarets."
